WORK EXPERIENCE

Arena Club

Los Angeles, CA

Product Designer II

July 2024 - Present

- Own the vision and execution of all customer-facing product experiences across desktop and mobile app, balancing user needs with business goals to deliver intuitive, high-converting interfaces.
- Redesigned the flagship product Slab Packs for mobile app, improving the end-to-end purchasing experience and increasing mobile conversion by **45%** while supporting **\$98M in monthly revenue**.
- Partner directly with the CEO, President, CTO, and PMs as a solo designer with a team of 45 engineers to ensure seamless integration and timely delivery of new features.

Artics

Los Angeles, CA

Product Designer

November 2023 - April 2024

- Revamped the direct messaging feature through 15+ user interviews and quantitative testing, integrating AI-generated prompts and streamlining the messaging flow, increasing user-to-user DM interactions by 23%.
- Designed the onboarding process to simplify user flow by conducting exit points analysis through A/B testing with the research team to generate effective design solutions, achieving an 8% increase in active user conversion.
- Implemented a comprehensive design system including components, color schemes, and iconography to save design workflow time by 20 hours per month per designer.

UCLA Institute of Transportation Studies

Los Angeles, CA

Digital Media Designer

June 2023 - December 2023

- Created a scalable design system for UCLA Arrowhead Symposium, attended by 400+ participants, improving ease of use for visitors, elevating digital media visual branding, and driving a 20% signup increase.
- Utilized information architecture principles to design and format over 150 academic publications in strict accordance with university and web guidelines, resulting in a 40% increase in page views and significantly improved readability.

UCLA Football Program

Los Angeles, CA

Interactive Media Designer

April 2022 - August 2023

- Led the creation of an immersive, interactive desktop experience with a custom digital illustration for the 2024 UCLA Football scholarship offer, engaging 285 incoming athletes and achieving a 15% increase in scholarship acceptance.
- Conducted usability testing with athletes and coaching staff, refining the interface to balance intuitive navigation and visual storytelling.

Hussle

Los Angeles, CA

Product Designer

November 2021 - June 2022

- Designed and prototyped 8 high-fidelity prototypes and wireframes based on qualitative UX research to optimize the explore page, user profile, and chat feature, increasing user session duration by 31%.
- Created a launch video for social media, attracting over 1,500 views in a week and boosting app downloads by 25%.
